In response to your letter dated 04.02.2008, I would like to convey my sincere thanks for inviting us to attend a presentation and followed by live demonstration on "Elide Fire Balls" (a fire extinguisher) in Eastern Railway Workshop, Liluah on 18.01.08.

The presentation was very informative and the live demonstration was very useful. The product is innovative & very effective to tackle small fire and it is a very good night-watchman due to its sensor ability and alarm facility. This may be used in coaches (specially in Rajdhani and Satabdi), depots, workshops, etc.
