Sub: Registration of Elide Fire – Fire Extinguishing ball .

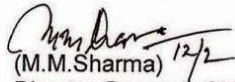

Dear Sir,

Please refer to your application no. SSBPL/EFB/DGMS/07-08 dated 12.2.2008 on the above subject.

There is no provision to grant approval under Coal Mines Regulation, 1957, Metalliferous Mines Regulations,, 1961 and Oil Mines Regulations,, 1984 for such type of system.

However, this Directorate has no objection if this type of system is used in any of the mines having open cast workings (including Workshop, HEMM repair shop and Electrical Sub-Station) in Coal or metal mines and also in Oil mines.

Yours faithfully,

(M.M.Sharma) 12/12
Director General of Mines Safety
